## Reference Manager Gadget: Faster Research. Smarter Bibliographies.

Article Galaxy Reference Manager is your single-source solution for scientific search and discovery, one-click literature access, bibliographic reference management, and copyright-managed PDF collections. Enjoy **robust literature management** in a central location and unleash the full power of Article Galaxy's on-demand literature access, right from your Reference Manager interface.

### Single-Point Reference Management:

- 🔍 Search 15,000+ journals and PubMed with integrated discovery.
- 📁 Import and manage references in bibliographies.
- 🏷️ Tag references by keyword in self-populating folders.
- 📄 Purchase full-text journal articles on the spot 24/7.
- 📝 Cite and write for convenient publishing in MS-Word.

**The Article Galaxy Platform**  
Discover how Article Galaxy—Reprints Desk's award-winning platform for research intelligence and on-demand access to scientific, technical & medical (STM) journal content—is continuously setting new standards for performance and customer satisfaction. ## Enterprise-Wide Collaboration

Reference Manager's **Group Bibliography\*** enables a fully copyright-compliant library of scientific literature—where all researchers in your organization can access and share your collection of previously acquired PDF articles for which re-use licenses exist.

- 🔗 Improve research outcomes with secure collaboration.
- 🔗 Reduce costs with duplicate order alerts.
- 🔗 Ensure copyright compliance with re-use rights notifications.

\*Exclusively available with Enterprise subscription and suitable copyright permissions.

## Automated Search & Discovery

Never miss out on relevant content! Time-saving 'Smart Folders' let you create keyword-driven bibliographies—that automatically and continuously populate based on your specified queries. Choose to query references across all of your personal and group folders, or from within a single bibliography.
